Food Processing Equipment

The S. Howes line of solids processing equipment continues the tradition of highly durable, dependable products. Our food processing line of equipment focuses on sanitary designs. Our experienced staff can help you choose the right equipment for your plant. S. Howes sanitary equipment minimizes the residue

build-up during processing and is designed for easy access for quality control and cleaning. High grade polishes are available to meet USDA and FDA requirements, as well as several other European standards. Below are categories of process equipment that can be integrated into your specific plant design.

Mixing & Blending

Our proven designs provide a superior, uniform mix complemented by a robust construction. Both batch and continuous mixing designs are available.

Continuous Mixer

Laboratory Mixer

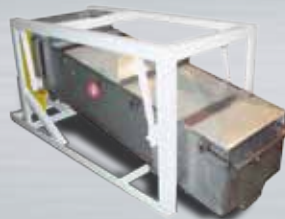

Batch Mixer

Jacketed Mixer

Separating and Screening

We offer a variety of rotary and vibratory screening. Applications include scalping or separations up to three decks.

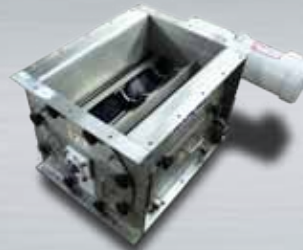

Shaker

Centrifugal Sifter

Size Reduction

Our heavy duty machines can reduce the size of ingredients for downstream processing.

Power Grater

Lumpbreaker

Screw Conveyors

S. Howes conveyors are built to handle most non-liquid materials and are significantly more robust than typical CEMA conveyors.

Feeders

Split Tube

Stainless & exotic alloys

Heating & Cooling

U-Trough

Custom Food Processing Equipment

Food manufacturing operations are often challenged with unique process requirements. S. Howes has the history and experience to assist customers with customized, engineered solutions for difficult sanitary applications.
