Parts Availability

Our aftermarket team is available to process your order promptly. We have inventory readily available for quick delivery. Most orders are processed within 24 hours, Many parts can be shipped the same day. Shipping arrangements, either by truck, rail, air, or ocean, are easily accommodated at the most economical routing possible.

Baghouse Analysis Services

Whether it's routine maintenance or an unexpected repair, our Service Department experts are dedicated to providing expedient solutions that minimize equipment downtime.

At Sly, part of our mission is helping our customers focus on what they do best – running their business profitably – while we guide them toward the most efficient and cost-effective air pollution control solutions for their specific requirements. To further this mission, we offer our customers the value-added services of baghouse bag analysis and particle size analysis.

Filter Bag Failure Analysis Services

- Permeability Testing
- Mullen Burst Strength Test
- Tensile Strength Test

Combustible Dust Testing

- Maximum Explosion Pressure (Pmax)
- Maximum Rate of Pressure Rise (Kst)
- Minimum Explosion Concentration (MEC)

Particle Analysis Services

- Bulk Density
- Particle Size Distribution Test

Your Trusted Advisors

From quoting to design to fabrication to post-sale support, Sly prides itself on being your trusted partner.

Manufacturing & Engineering

Sly manufactures most items in house, enabling us to have full control of the quality of our equipment, as well as the timing of completing orders. From technical support to on-site service, our expert service technicians are skilled in the practice of problem solving.

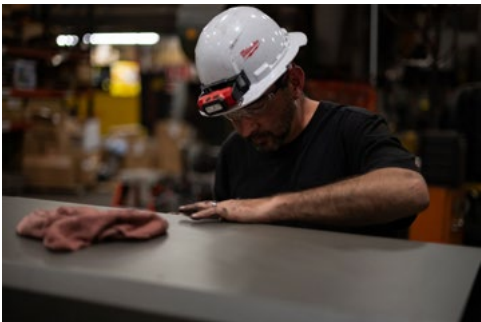

- Manufacturing expertise working with mild steel, various grades of stainless steel, duplex steels and other exotic alloys for specialty applications
- 3D equipment modeling
- State-of-the-art manufacturing facilities
- Welders certified to ASME & AWS standards
- 350 ton press brake
- Plate roller capacity of up to 3/8" thick x 6' in width

Customer-Centric Approach

We prioritize building strong relationships with our customers. It's only when we get to know you and understand your unique requirements that we are able to deliver tailored solutions that add value to your operations.

We value our customers' trust and are committed to providing reliable solutions, consistently meeting or exceeding your expectations.
